From the President's Desk By: Jeff Richardson

• Every advance in this half-century, Social Security, Civil Rights, Aid to Education, one after another, came with the support and leadership of American Labor. (Jimmy Carter)

• One thing that corporations do not do is give out of their hearts. (Molly Ivins)

• When fewer workers have unions. The standard of living falls for everyone and the gap between the rich and poor grows. (John Sweeney)

• My Friends, it's solidarity of labor we want. We do not want to find fault with each other, but to solidify our forces and say to each other "We must be together; our masters are joined together and we must do the same thing. (Mother Jones)

If you haven't been joining me for my Facebook Live every Thursday night at 7:00 PM, please do. You will find it very informative concerning union topics and issues. Many of our very

own International Vice Presidents along with other unions join in for the discussions.

In Solidarity,
Jeff Richardson

A Message From Charlie Sikora Financial Secretary/Treasurer

We now have a secure website which means in order to access it you have to register and then be approved by the website administrators, either myself or Sue. This is common practice amongst unions to limit access to sensitive information that we sometimes post. When you log into the website, you will see a link that says register. Fill out the form, but please don't use nicknames or whatever name you use on Facebook, etc. I'm having a tough time on some of the forms trying to figure out if you're one of our members or a spammer trying to access the site. Whatever goes on that form

stays in this office.

A member recently told me that he was having an issue with the amount of bank sick days he knew he had and the amount that was in his sick bank file. I had the same problem about ten years ago and again six years ago. Working with Kathy Ehrig the first time and Greg Beck with the second time, I was able to prove what I had and got those days back and kept track from that point on. The problem was not with the payroll department, it was incorrect information received from the locations. So most of you

track your overtime on the daily or at the end of each week, you should also be tracking how many days you bank at the end of each year and keep a running total. Then check with your location to make sure that you both have the same number of days. Remember that the paperwork of what you used or didn't use is at your location and with a little digging you should be able to straighten out any mistakes that were made.

Have a great spring and summer when they decide to show up.
